STOLYPIN'S WOUND PROVES MORTAL

Russian Premier Succumbs to Bullet Fired by Lawyer in Crowded Theater

HE BRAVELY FACES THE END

Career of Brilliant Statesman Cut Off by Assassin; Was Liberal in Policies

KIEFF, Sept. 18.—A gallant fight for life ended late today when Premier Stolypin, for several years the most commanding figure in Czar Nicholas' government, died from pistol wounds inflicted by Dimitry Bogroff, a lawyer in the municipal theater last Thursday. After it had appeared he would recover, he was stricken with peritonitis and despite the utmost efforts of five physicians, he sank rapidly. Throughout the ordeal, however, the aged premier displayed the greatest fortitude, well knowing the end wasc near, yet resciged withall.

Simultaneously with Stolypin's death the belief gained ground throughout the country that his assassination is the forerunner of a series of murders of royalties, a ristocrats and officials. For some time it has been suspected that the terrorists were preparing for a lively campaign and a general roundup of suspects is being made by the authorities. Today more than 15,000 followers of Bogroff were arrested here and in St. Petersburg. At Moscow and other places prisoners are being taken wholesale. The safeguards thrown about the czar are being strengthened at every conceivable point, there being a general fear that he would be the next attacked. The czar has displayed great concern over the assassination of his adviser, the attempt upon whom he witnessed from the imperial box at the play house.

A wholesale exodus of Jews began here as soon as the seriousness of the premier's condition became known, it being feared that there will be anti-Semitic outbreaks as the direct consequence of his death. The authorities believe that the assassin, Bogroff, was in the employ of a coalition of Jews and Finns opposed to Stolypin's Russianization plans and drastic governmental methods and are conducting their investigation along these lines. There is also a theory that Bogroff was a combination government spy and revolutionary forced into a position where he had to murder Stolypin or himself suffer death at the terrorists' hands for his duplicity.

Premier Peter Arkadievitch Stolypin was born in St. Petersburg in 1863. From infancy he was destined for a life in diplomatic circles. His mother was a Gorchakov and his father was one of the prominent generals of the army.

After an elementary school education he was sent to the university of St. Petersburg to study law. Immediately after his graduation he was given a position in the law department of the government at St. Petersburg.

In 1888 he was appointed governor of the province of Korno. A few years later he was made governor of the province of Grodno.

In May, 1906, Stolypin succeeded Goremykim, the first minister of the interior. He served in this capacity for four years when he was appointed minister of agriculture. It was during his first year as minister of the interior that the first attempt was made on his life. On July 22, 1906, a bomb was thrown into Stolypin's house by anarchists.

His three-year-old son was instantly killed and several servants received fatal injuries but he escaped uninjured. Many other attempts to take his life were made after he became a prominent member of the czar's cabinet. In several bomb throwing affairs men in his immediate vicinity were instantly killed. He always escaped uninjured.

Stolypin served several years as the minister of agriculture and was hailed by all in European diplomatic circles as the "man of the hour" in Russia. He was looked upon as averting a revolution which seemed unavoidable.

His wonderful work during this crisis caused Emperor Nicholas to make him premier and minister of the interior.

Stolypin was considered a liberal as to the carrying out of policies for the handling of the provinces and making "real Russians" of these people.

SHAKERS TO FACE MURDER CHARGE

State's Attorney Says He Will Prosecute Aged Couple Who Hastened Sister's Death

THEIR RELIGION IS NO EXCUSE

Case to Be Taken Before Grand Jury in November; Pities Unfortunate Couple

ORLANDO, Fla., Sept. 18.—Declaring that he will prosecute to the fullest of his ability for a conviction of first degree murder, State's Attorney John C. Jones, today, gave the United Press a signed statement setting forth his view of the act of two Kissimmee Shakers, who put a woman member of their colony to death to save her the agony of the last throes of consumption. His statement follows:

By John C. Jones, State Attorney, Seventh Judicial Circuit of Florida.

(Copyright, 1911, by United Press)

Regarding your inquiry whether Elder Egbert Gillette and Eldress Elizabeth Sears of the Shaker colony in Osceola county will be prosecuted for the murder of Sadie Marchant, I reply:

It is my duty to prosecute them and I shall certainly do so. Under the laws of Florida, "the unlawful killing of a human being when perpetrated from a premediated design to effect the death of the person killed is murder in the first degree."

Religion No Excuse

The act is fully covered by the statute. Gillette stated that he knew chloroform would kill the woman and that he gave it to her for that purpose. The fact that the fatal dose was administered under the belief that he and the eldress did it for the purpose of relieving pain of a person suffering from an incurable disease or because they believed their religious faith authorizes such an act, does not alter or excuse the criminal quality of the act.

Freedom of conscience and religious belief is guaranteed by the constitution of the United States and also by the several states, but this only permits the freedom of religious belief and worship, and does not permit the commission of any act under conscientious or religious belief which involves an act forbidden by the criminal laws of the land and by the law of God. This view has been held and established by Chief Justice Field, then justice of the supreme court, in Davis vs. Beason, 133 United States, Page 333, and in all trials against the Latter Day Saints in which the legality of the polygamous customs of the Mormons were decided not to permit a private citizen for any reason, religious, conscientious or otherwise to be the arbitrator of the life or death of a human being.

Opens Door to Crime

Except in cases of pure self-defense or defense of property, where the aggression amounts to a felony, it would be a most dangerous doctrine, for under such a principle the aged, the infirm, the helpless, the infant and the diseased will be treated as if they were worn out animals and under such a doctrine torture and human sacrifice would be legal, not to mention thes opening of wide door for criminal acts under the cloak of religious fervor or humanitarian motives and also under circumstances impossible for detection and punishment.

However, much I pity this unfortunate couple, I am convinced that they are guilty of murder, and they will be prosecuted under the laws of the land to the best of my ability. The case will come before the grand jury at the fall term of the circuit court of Osceola county which convenes November 28.

Suiide to be Defense

KISSIMMEE, Fla., Sept. 18.—There is no law in this state against abetting suicide and the defense of Brother Egbert Gillette and Sister Elizabeth Sears, charged with the murder of Sister Sadie Marchant will be that she committed suicide; according to announcement today.

The two Shakers have admitted that they gave their comrade chloroform because she was incurably ill from consumption.

TROOPS PATROL VIENNA STREETS

Six Killed and 200 Wounded when Soldiers Fire Into Crowd of Rioters

VIENNA, Sept. 18.—Troops are patrolling the streets here to prevent a recurrence of yesterday's rioting when six persons were killed and 200 wounded as a result of a forcible protest of the people against the high cost of living.

The police have issued orders forbidding any further socialist meetings, as yesterday's demonstration outside the city walls was considered directly responsible for the riot later in the day.

Fifty thousand persons attended the meeting and worked themselves into a frenzy of enthusiastic protest over recent governmental acts prohibiting the importation of foreign meat.

They then marched on the parliament buildings, cheering for revolution and Portugal. Troops were ordered to check their advance and, when the mob refused to halt, the soldiers fired into their ranks.

Unless parliament takes immediate action on the demands of the people, it is feared more serious riots will occur.

SENATOR CARTER DIES

SUDDEN PASSING OF MONTANA STATESMAN SHOCKS FRIENDS; SLATED FOR G. O. P. CHAIRMANSHIP

WASHINGTON, Sept. 18.—Awaiting word from his home in Montana as to the arrangements for his funeral, the body of former United States Senator Thomas Henry Carter lies today in his home here. Mr. Carter, who was a close friend of President Taft and a leader in the republican party, died here suddenly yesterday from an affection of the lungs. Despite the fact that he had been in ill health for some time, his death came as a great shock to his relatives and friends.

Mr. Carter had served two terms in the senate and his name was among those mentioned for chairmanship of the republican national committee in 1912. He was 57 years old.

Taft Sends Regrets

DETROIT, Mich., Sept. 18.—In an impromptu speech a breakfast to President Taft and his party here by Detroit newspaper men, this morning, the president expressed his sincere regrets at the sudden death of his close friend, Senator Thomas Henry Carter of Montana who died suddenly yesterday in Washington. The president also sent a message of condolence to Mrs. Carter, sympathizing deeply in her bereavement.

President Tafe gave a short eulogy of Senator Carter, and said the news of the senator's death had come as a severe shock to him, as when he last saw the senator he was in the best of health.

BANKER ACCUSED OF FRAUD

CHICAGO, Sept. 18.—John Worthington, president of the American bank, a private institution, is under arrest here for the alleged defrauding of the Night and Day banks of Kansas City of $2,500. Worthington gave bond and agreed to appear in Kansas City for a hearing.

It is charged that the banker went to the Missouri city with three notes of $1,000 each and induced the Night and Day bank to take them up for $2,500, giving as security a parcel of Chicago real estate. When the Missouri bank was unable to locate the property the officers became uneasy and asked Worthington's arrest.

PLAN BEAUTIFUL FLORAL EXHIBIT

Ladies of the Twentieth Century Club to Hold Big Event in Library Friday

A public flower exhibition will be conducted by the ladies of the Twentieth Century club at the public library Friday afternoon beginning at 1:30. The exhibits will be the flowers submitted by children in the contest held under the auspices of the club for the purpose of promoting the beautification of residence's yards and boulevards. Individual prizes aggregating $33.00 will be awarded.

The committee in charge of the exhibit today issued the following statement to govern the presentation of their offerings by the children:

The floral exhibits must be securely tied with the name and address of the contestant attached.

The committee will collect the exhibits, and the children must leave them at their respective schoolrooms not later than 1:30 Friday afternoon.

Prize winners will be given their cash premiums at their respective schoolrooms Monday afternoon.

Local florists will act as judges of the contest.

Next week the prizes in the contest for the best back yard, also conducted by the Twentieth Century club, will be concluded and the prizes will be awarded.

The public is invited to the Friday exhibition, and the committee voices the hope that the attendance will be so great as to lend encouragement to the movement.

OWEN WILL OPPOSE ATTORNEY BANCROFT

MILWAUKEE, Wis., Sept. 18. — Walter C. Owen of Maiden Rock has formally announced his candidacy for attorney general on the republican ticket for next year's primary selection. Mr. Owen is one of the recognized progressive republican leaders and he expects to receive the united support of that wing of the party, against the candidacy of Attorney General Bancroft, who will likely aspire to a second term.

The tentative progressve ticket calls for the renomination of Governor McGovern and Lieutenant Governor Morris, Henry C. Martin of Darlington for secretary of state, and Henry Krumrey of Plymouth for state treasurer.

Congressman I. L. Lenroot and W. L. Houser have been impressed with the necessity of seeing that "progressive control of the state is not lost, which includes a solid delegation for Senator La Follette to the national convention."

To "progressives" here it is made clear that the senator will be the candidate of the "progressives."

MRS. F. X. WEIGEL DIES AT HOSPITAL

Mrs. Wilhelmina Weigel, aged 50 years, life of Franz X. Weigel, 1001 Johnson street, died at 11:45 a. m. yesterday at one of the local hospitals after an illness of only a week's duration. Beside her husband, Mrs. Weigel leaves ten children to mourn her loss: Louis A. Weigel and Mrs. Grant Childs, Ashland; Mrs. A. Kuester, Minneapolis; and Mrs. Grant Eidsmoe, Alfred, Walter, Arthur, Eleanore and Florence, of La Crosse. The funeral will be held from the residence at 2:30 Wednesday afternoon. Rev. Henry Andreas will officiate, and burial will take place in the Oak Grove cemetery. Mrs. Mannstedt in charge.

ENTOMBED MINERS HAVE GOOD TIME

Sing and Tell Stories While Waiting for Rescuers; Food Sent Down Pipe

LEADVILLE, Col., Sept. 18.—Subsisting on bologna sausage, beer and delicacies, the three Finnish miners entombed alive 350 feet below the surface of the earth in the shaft of the Morning Star mine today awaited rescue by the gangs of men who have been working without ceasing since Saturday afternoon.

Owing to the amount of debris to be cleared away and the danger of old timbers in the shaft caving in, the rescuers, who are working in shifts of six each, are proceeding slowly, fearful of starting a run of earth.

The three miners, Frederick Caski, Andrew Perle and Mathew Jacobson are in good spirits and have employed themselves by singing and telling stories since their entombment. A three inch pipe has been driven through the debris from the surface and through this the men are able to converse with their families and relatives on the surface. Beer, coffee, tobacco, fourteen feet of sausage, sandwiches and numerous other eatables have been lowered to the men.

All three miners are married, and their wives and children have been at the mouth of the connecting pipe most of the time since their imprisonment.

FRANCE DISSATISFIED

ADMINISTRATION LIKELY TO BE VOTED FROM OFFICE FOR CONCESSIONS TO GERMANY

PARIS, Sept. 18.—Now that a decisive stage has almost been reached in the Franco-German negotiations over Morocco, it is the general opinion that the French administration, though it has temporarily escaped war, will probably be speedily voted out of office on account of popular dissatisfaction at the concessions it has made.

It is a practical certainty that France has offered to turn over to Germany 60,000 square miles in the richest part of the French Congo where fifteen Gallic companies have invested $10,000,000 in ten years. It is doubted if Germany has made concessions in Morocco sufficient to compensate France for the renunciation.

It is even possible that the chamber of deputies may refuse to ratify the administration's agreement, in which case relations between the two countries would immediately become more strained than ever.

WILD AUTO KILLS ELEVEN IN CROWD

Lee Oldfield Goes Through Fence During Race at Syracuse, N. Y., Saturday

ELEVEN MORE ARE INJURED

Driver in Hospital, Practically Under Arrest; Raced with Imperfect Tire

SYRACUSE, N. Y., Sept. 18.—Syracuse this morning is still shivering from the shock of the auto race tragedy at the State fair Saturday afternoon, as a result of which eleven persons are dead, one is dying and ten more are still in hospitals seriously injured.

Lee Oldfield, the driver of the Knox car that dashed through the fence into the crowd at the quarter-mile post is practically under arrest at the hospital, where he is recovering from his injuries. It is expected that before the day is out, Coroner Kinne, who is marking a rigid investigation, will have placed the blame, and some one will be charged with criminal negligence.

Words of censure are heard on all sides over the fact that Oldfield was permitted to continue in the race with an imperfect tire. He should have been stopped long before the accident, in the opinion of auto race experts. The opinion of Attorney General Carmody as to how far the state is liable is being anxiously awaited here.

The list of dead follows:

William Henry McLaughlin, died in hospital.

Charles Baltanyne, 28, bank clerk.

Frederick H. Arnold, 30, died in ambulance.

Harold Arnold, aged 9, son of F. H. Arnold.

Claude Hamill, 29.

John W. Payne, 47.

Sth Smith, 62, died at hospital.

Harry Bradley, 35, died Sunday.

Cornelius W. Halpin, 22, died at hospital.

Nicholas Coin, 23.

Edward T. Ryan, 18.

May Quit Racing

ALBANY, N. Y., Sept. 18. — The fatal auto accident at the State fair Saturday will probably end automobile racing at future fairs and also any exhibitions which may be dangerous to the public. It was learned today that Gov. Dix will probably insist that next year the fair may be devoted only to exhibitions of an educational nature.

Today Attorney General Carmody received a letter from State Commissioner of Agriculture Pearson asking for an opinion as to thes state's liability for the accident.

TESTS O.K. REPORT OF SLICHTER

Chicago Engineer Here With His Analyses

COUNCIL IS CALLED

Special Session to Act on Result of the Examination.

UNLIMITED PURE SUPPLY

New Plant Will Be Working Next Fall is the Prediction

Confirming every detail in the report of Prof. Charles S. Slichter, the Wisconsin railroad commission's expert, regarding the proposed well system for La Crosse and maintaining that the analysis of the water by the Dearborn Chemical company of Chicago showed the water to be of even better quality than claimed by Prof. Slichter, A. T. Maltby, the Chicago engineer, who will install the new well system, today submitted his report of the tests to the special water committee of the council.

Immediately following the reading of Mr. Maltby's O. K. on the rate commission's order the committee voted unanimously to accept his report.

A special meeting of the council has been called by Mayor John Dengler for tomorrow night at which time the council, as a committee of the whole, will officially accept the report thus confirming the committee's action in the matter.

The tests made by Maltby to confirm Slichter's report, were deemed necessary owing to the experience of the La Crosse Rubber Mills company with water taken from the marsh near Indian Hill, in the La Crosse river valley. In this instance incrustations were formed on water pipes and boilers in the plant of that company. Two additional test wells were sunk in the investigation.

Water Absolutely Pure

"The sanitary character of the water, that is its freedom from waste, animal or vegetable matters liable to cause disease to consumers," says Mr. Maltby's report, "is the first and most important consideration in a public water supply, and in this respect the bacterial analyses prove that the general conditions surrounding the proposed wells, insured its unquestionable purity and leaves little to be desired from that source."

The quantity is the next essential point, says Maltby and on this score the public need not worry. The supply is unfailing and will suit the present and future needs.

The only remaining question is the adaptability of water from this source for manufacturing purposes and after an exhaustive and detailed explanation of the geological conditions Mr. Maltby maintains that this matter will form no ground for worry.

Endorses R. R. Commission

His complete endorsement of the rate commission's recommendations comes in the paragraph of the report where he says:

"In view of the above I can and do fully endorse the findings of the state railroad commission of Wisconsin in their order dated June 21, 1911, as based upon the report and recommendations of their expert engineer, Prof. Charles S. Slichter."

Following this Mr. Maltby makes several recommendations regarding the system which will be acted upon

Why is the soda cracker to-day such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

To-day there is a soda cracker which is *the recognized staple* — Uneeda Biscuit.

Uneeda Biscuit are the most nutritious food made from flour and should be eaten every day by every member of the family from the youngest to the oldest.

Uneeda Biscuit—soda crackers better than any ever made before—made in the greatest bakeries in the world—baked to perfection—packed to perfection—kept to perfection until you take them, oven-fresh and crisp, from their protecting package.

TRAIN KILLS 4 HITS CARRIAGE

Wife, Daughter, Son and Servant of Rockfield Dead; Man and Boy Hurt

MILWAUKEE, Wis., Sept. 18. — Four members of the family of Frank Klein, postmaster and notary public of Rockfield, Wis., and a servant of the family were killed when Soo road passenger train No. 202, due in Milwaukee at 6:50, struck their double buggy near Germantown early Sunday night.

The dead:

MRS. ANNA KLEIN, 37 years old.
JERRY KLEIN, 7 years old.
GRACE KLEIN, 11 months old.
WOMAN SERVANT, name unknown.

The injured:

Frank Klein, 41 years old, postmaster and notary public at Rockfield; scalp wound and possible internal injuries.

Robert Klein, 2 years old; slightly bruised.

The team which was drawing the surrey occupied by the victims was thrown to one side of the track, but the horses were scarcely injured.

The only possible explanation of the disaster was that the few trees along the roadside obscured the view of the railroad track so that Klein, who was driving, was unaware of the approach of the train.

The six occupants of the rig were on their way from Polk, which is near Richfield, on their way home.

The train was going at a moderate rate of speed, between thirty-five and forty miles an hour, according to passengers, when the crash came. According to a brother-in-law, the only one outside of nurses and doctors allowed to talk to Klein, because of his condition, the head of the family was cautious in driving onto the track. When he saw the headlight he did not recognize it as such until it was too late, believing it to be the tail light of a passed train.

CLANCY TRIAL NEAR END

MILWAUKEE, Wis., Sept. 18. — The cross-examination of Fire Chief Thomas A. Clancy will be resumed before the police and fire commission this morning. The board will hold sessions this morning, this afternoon and tonight. Then it will adjourn for a week.

The case for Chief Clancy is nearly finished. A few more witnesses will be called, and then the attorneys for the complaining witness will begin their rebuttal. It is expected that former Assistant Chief Michael Harden, among others, will be called as a witness.

WEST ALLIS HORSEMAN PROBABLY FATALLY INJURED IN FREIGHT WRECK NEAR MONROE, WIS.

MONROE, WIS., Sept. 18.—Edward H. Lull, a horseman of West Allis, Wis., was probably fatally injured in a freight wreck on the Milwaukee road four miles east of here yesterday, when a heavy engine and thirteen cars went down a thirty foot embankment. Lull was in one of the cars with two other men and two horses and was badly bruised when it rolled over.

Seven hundred feet of track were torn up. The cause of the wreck was probably the spreading of rails. Traffic on the Mineral Point division will be blocked till Monday night.

Conductor John Moore and Fireman J. J. Hoppe, both of Milwaukee, were among the crew and escaped injury. The engineer jumped to safety. Brakeman Harry Cutler of Madison jumped but a car rolled over him down the embankment. He miraculously escaped with only a broken arm.

AGED MAN SHOOTS WIFE AND SELF

WAUSAU, Wis., Sept. 18.—Frank Steingorf, aged 60 years, of Mosinee, thirteen miles from this city, shot and killed his wife early Saturday evening. He then turned the revolver upon himself, inflicting a wound from which death soon resulted. Coroner Schulze has notified Justice Walker that an inquest will be held today.

Steingorf, it is said, had not lived regularly with his wife, and the two are said to have quarreled frequently.

Several years ago, too, Steingorf was confined for some time in an asylum for the insane at Oshkosh, but was declared cured and released on parole.

Steingorf had several grown up children who lived at home.

TO SUE ROAD FOR GREEK DEATHS

John Hadreas, owner of a shoeshine parlor on North Fourth street, was today appointed administrator of the estate of Peter Paluas and Gus Lorenzatos, two Greeks who were killed last Monday night by a Milwaukee train at Sparta.

Hadreas makes the assertion that the men were walking along one track and stepped to another to avoid a train and in so doing placed themselves directly in the path of a passenger train coming from the opposite direction. He also declares that no whistle was blown by the passenger train as a warning, and that he will bring suit for $10,000 for the death of each of the men.

Both men have relatives in in Greece.

SOCIETIES HOLD FIRST DEBATES

Friday night's question of the L. D. D. S. was: "Resolved, that the direct primary for president be adopted by the state of Wisconsin." The negative was upheld by A. Euler and A. Teuteur, and won by a decision of two to one against the affirmative, upheld by W. Gates and A. Lewis.

President Gates gave a fitting inaugural address which was followed by an address of welcome to the freshmen by W. Wagner. W. Walker gave an interesting talk on the Postal Savings bank. Mr. Leach acted as critic.

The W. P. D. S. held a hot debate upon the question, "Resolved, that the congress of the United States should establish a Negro colony in Africa and transport the Negroes thereto." The negative upheld by F. Reimers and C. Rupp, won by a unanimous vote over the affirmative, upheld by R. Pfleuger and W. Sar-

C. Bovee was critic for the evening. A committee was appointed to confer with the L. D. D. S. to arrange for a date for a concert to be given by the Roney Boys under the auspices of the two societies.

EXPRESS RATES LOWERED

DES MOINES, Iowa, Sept. 18.—Federal Judge McPherson today issued an order dissolving the temporary injunction he issued some time ago restraining the state board of railroad commerce from lowering express rates, and as a result the lower rates will go into effect October 31. The reductions affect all express companies in the state and lower the rate from ten to fifteen per cent, according to the company, road and distance.

MOVING PICTURES CHEAPEN AMERICA

CHICAGO, Sept. 18.—Moving picture film makers of Chicago, who have been invading foreign countries with their picture shows, have been warned by the department of commerce and labor that bad editing is causing American films to be ridiculed or misunderstood in Europe. Foreign houses, securing the rights to Chicago and American films, are inthe habit of writing explanations and headlines to elucidate the situations, using the language of the country where the film is to be shown. One film was a story of a cowboy and Indian intrigue, deception and fighting. The costumes of the cowboys were exagerated. The labels said that the picture had been taken in the United States and the actors wore the American national costume. A film showing a holdup in the cattle country had a sub-title stating that this was an event of regular life in America. One film showing the "Customs of the Indians Castes" was labeled "Customs of the Chaste Indians," and another translater made it "Costumes of the Indian Castes." The "costumes" consisted of about four yards of muslin wrapped around each Indian. The prestige of American-made films is hurt by these inaccuracies and the manufacturers are asked to be more strict in their contracts with foreign agents.

45 YEARS OF SCHEDULE K

(From the Worcester Evening Post)

APRIL, 1886—The wool-growers and wool-manufacturers meet at Washington, D. C., and agree upon a tariff on wool and wool goods.

APRIL 1866—The wool-growers recommended a tariff on wool to the United States Revenue Commission.

MARCH 2, 1867—A Republican Congress passes a woolen tariff law substantially the same as that recommended by the wool growers and manufacturers.

JANUARY, 1880—Agitation for a revision of the tariff. The National Association of Wool Growers opposes any change in Schedule K, but favors **a tariff commission.**

FEBRUARY, 1880—The President and Secretary of the National Association of Wool Manufacturers interview the President of the United States and obtain assurances as to the personnel of the new commission.

MARCH, 1880—The National Association of Wool Manufacturers recommends the passage of the Tariff Commission bill without amendment.

JULY, 1880—The National Association of Wool Manufacturers circulates among manufacturers a petition which says:

"That the manufacturer should have a protective duty sufficient to offset the high cost of labor, interest and taxes; that the present tariff (Schedule K) should continue until special and minute information from experts shall indicate the changes that can safely be made; that the best method of obtaining the required information is through the Eaton Tariff Commission."

MAY 15, 1882—A tariff commission authorized by act of Congress.

MAY, 1882—John L. Hayes, secretary of the National Association of Wool Manufacturers, appointed president of the Tariff Commission. Later he is made chairman of the subcommittee to prepare the woolen and worsted schedules.

DECEMBER, 1882—Report of Tariff Commission sent to Congress.

MARCH 3, 1883—Tariff bill passed increasing some rates in Schedule K and making reductions that did not help the consumer.

OCTOBER 1, 1890—The McKinley bill is passed by a Republican Congress, increasing duties on wool goods. The duty on worsted tops, manufactured by William Whitman, president of the National Association of Wool Manufacturers, is made equal to the duty on finished cloths.

AUGUST 27, 1894—The Wilson bill, passed by a Democratic Congress, becomes a law, revising Schedule K, with free wool and ad valorem duties on goods.

MARCH, 1897—S. N. D. North, secretary of the National Association of Wool Manufacturers, is admitted to the secret sessions of the Senate Finance Committee during the framing of the Dingley bill. April 4, 1897, North writes to William Whitman:

"I am the only person whom the committee allows in its meetings."

JUNE 2, 1897—William Whitman writes to Secretary North, who is attending tariff sessions of Finance Committee:

"We all depend upon you to watch closely our interests."

JULY 10, 1897—William Whitman writes to Secretary North, who is attending tariff sessions of Finance Committee:

"I depend on you, dress goods, yarns and tops."

JULY 25, 1897—The Dingley bill, with Schedule K practically unchanged, becomes a law.

1897—The National Association of Wool Manufacturers presents $5,000 to S. N. D. North, its secretary, for services in connection with the revision of the tariff.

JUNE, 1908—Agitation for a revision of the tariff. The Republican national convention at Chicago pledges the party to revise the tariff to equal the difference between the foreign and domestic cost of production plus a profit. This is practically the same as the proposition laid down by the National Association of Wool Manufacturers in **JULY, 1884,** for the revision of the tariff.

SEPTEMBER, 26, 1908—William H. Taft, Republican candidate for President, makes the following pledge in a speech at St. Paul:

"I am here to plight the faith of the Republican party, in accordance with its platform, that the revision will be honest and exact, according to the measure stated in the platform."

AUGUST 5, 1909—A Republican Congress passes and President Taft signs the Payne-Aldrich bill, which leaves Schedule K practically unchanged.

SEPTEMBER 16, 1909—President Taft confesses at Winona, Minn., that it was impossible to revise Schedule K because of the combine of wool-growers and wool-manufacturers.

APRIL 8, 1910—William Whitman, president of the National Association of Wool Manufacturers, before the Massachusetts Cost-of-Living Commission, states that he—

"Does not know of any reason why President Taft should know any more about the wool tariff than does the gentleman who recently refused to receive Mr. Roosevelt."

AUGUST 20, 1910—President Taft, in a letter to Congressman William B. McKinley, states that—

"The precise difference in the cost of production sought for is not capable of definite ascertainment" and "all that even the most scientific person can do is to exercise his best judgment in reaching a conclusion."

OCTOBER 17, 1910—William Whitman, president of the National Association of Wool Manufacturers, spends four hours with the Tariff Board at Washington and then issues the following statement:

"I oppose the Tariff Commission very strongly, but the Tariff Board is a very different thing. I want to do what I can to show my appreciation of President Taft. I believe he means well and is doing well, and I am ready to meet him half-way."

DECEMBER 8, 1910—Banquet of the American Association of Woolen and Worsted Manufacturers at New York. Chairman Emery of the Tariff Board present. On this occasion Chairman Emery said:

"There are certain things that are very difficult to get, and one thing, that according to the platform of the Republican party—and incidentally that does not mean anything to me, except that I have been given the job according to that platform—is to try to get the cost of production. I thank you all, gentlemen, that you did not laugh. (Laughter.) * * I frankly say right here that this idea of settling things on cost alone by any mathematical or algebraical or geometric ratio or problem or theory, is all nonsense. You must not think I am joking about this thing, but there is a joke about it, and the joke is this: **I have no powers whatsoever. The Tariff Board has no powers. There is really no such thing as a Tariff Board. The law says that for certain purposes the President may employ such persons as he sees fit. I am one of such persons. That is all."** (Laughter and applause.)

FEBRUARY 1, 1911—Banquet of the National Association of Wool Manufacturers at Washington, attended by thirty-five stand-pat Senators and Representatives and two members of the Tariff Board, Chairman Emery and J. B. Reynolds. William M. Wood, president of the American Washer Company, said on this occasion:

"If all the schedules of the tariff were as well balanced as Schedule K it would be the most remarkable document, next to the Constitution of the United States, that the human mind has ever produced."

AUGUST 15, 1911—Passage of the Underwood-La Follette bill to revise Schedule K and providing for duties of 29 per cent. on wool and 49 per cent. on wool goods.

AUGUST 16, 1911—President Taft vetoes the Underwood-La Follette bill on the ground that the Tariff Board has not reported.

"The La Crosse Tribune—a so-called 'syndicate' paper—has the colossal impudence and lack of good sense to say, speaking of the presidency, 'It has not honored Taft and he has not honored it.' Is it any wonder that so many consider the ravings of the so-called progressives as mere hypocrisy, buncombe, or uttered in a petty spirit of revenge?"—Eau Claire Leader.

We can conceive no more appropriate sentiment than the wish that our contemporary may always be appreciated according to the standard of "good sense" and dignity established in the above paragraph.

"The talk of James A. Tawney for congressman-at-large, will not down."—Blue Earth Post.

Not if Mr. Tawney can keep it up.

"Whatever the ardent admirers of Sydney Anderson may think of his oratorical flights they do not seem to appeal to the disinterested observer."—Sam Langum in Preston Times.

We recall that they appealed to the voters of the First district during the primary campaign which furnished another "lame duck" for Minnesota's political poultry show.

Something to Show

"Do you mean to tell me," demanded Mr. Sillicus angrily, "that you actually ordered $10 worth of groceries of a total stranger, at prices less than any wholesale dealer can buy them, and paid for them in advance?"

"Yes, that's what I said," replied his better half.

"And you hadn't sense enough to see that it was a bare-faced swindle!" roared Sillicus. "Well, your money's gone now, and you have nothing to show for it."

"Why, yes, I have John," said his wife. "I have the man's receipt for the money." — September Lippincott's

"But everybody will blame you—you will have no place to go—it will be horrible—you don't begin to know what it means. Of course, we have made mistakes.'

"Then let's not make the worst mistake of all," she said.

"But we could do so much—"

She turned upon him suddenly, pale, excited. "Do not!" she cried. "Do not use those words! It seems to me that that is what all men think and say. 'How much we could do—together!' Do not say that to me."

At this he sobered. "Then there is some one else?' he said slowly. "You've heard some one else use those words? I couldn't blame him. Well, I wish him happiness. And I wish you happiness, too. I had no right to presume."

"Happiness!—what is that?" she said slowly. "I've been trying to find it all my life. My God! How How crooked were all the mismated planets at my birth! I haven't been happy myself. I do not think that I've added one iota to the happiness of any one else. I've just failed, that's all. And I've tried so hard—to do something, something for the world! Oh, can a woman—can she ever?" For once shaken, she dropped her face an instant in her hands, he standing by, mute, and suffering much as herself at seeing her thus suffer.

"But now," she continued after a time, "I want to ask you whether I've been ungenerous or vindictive with you—"

"Vindictive? You? Never! But why should you be?"

"Captain," she said easily, "my lieutenant, my friend, let me say—I will not be specific—I will not mention names or dates; but do you think, if you were a woman, you could ever marry a man who once, behind your back, with not even eagerness to incite him, but coolly, deliberately—had played a game of cards for—you?"

He stiffened as though shot. "I know. But you misunderstood. I did not play for you. I played to relieve a situation — because I thought you wished—because it seemed the solution of a situation hard for both of us. I thought—"

"Solution!" She blazed up now, tigerlike, and her words came through set lips. "I'd never have told you I knew, if you hadn't said what you have. But—a solution—a plan—a compromise! You ought to have played for me! You ought to have played for me; and you ought to have won—have won!"

He stood before a woman new to him, one so different from the grateful and gracious enthusiast he had met all these months that he could not comprehend the change, could not at once adjust his confused senses. So miserable was he that suddenly, with one of her swift changes, she smiled at him, even through her sudden tears. "No! No!" she exclaimed. "See! Look here!"

She handed him a little sheet of crumpled note paper, inscribed in a cramped hand, showed him the inscription—"Jeanne Fournier."

"You don't know who that is?" she asked him.

"No, I don't know."

"Why, yes, you do. My maid—my French maid—don't you remember? She married Hector, the cooper, at St. Genevieve. Now, see, Jeanne is writing to me again. Don't you see, there's a baby, and it is named for me—who has none. Good-by, that money!"—she kissed hand to the air—"Good-by, that idea, that dream of mine! That's of no consequence. In fact, nothing is of consequence. See, this is the baby of Jeanne! She has asked me to come. Why, then, should I delay?"

Whether it were tears or smiles which he saw upon her face, Carlisle never could determine. Whether it were physical unrest or mental emotion, he did not know, but certainly it was that the letter of the agent remained upon the table untouched between them while Josephine St. Auban pressed to her lips the letter from Jeanne, her maid.

"Why, I have not failed at all!" said she. "Have I not cared for and brought up this Jeanne, and is there not a baby of Jeanne, a baby whom she has named for me?"

Carlisle, mute and unnoticed, indeed, as he felt almost forgotten, was relieved when there came a knock at the door. A messenger bearing a card entered. She turned toward him gravely, and he could only read dismissal now. Mute and unhappy, he hurried from the room. He did not, however, pass from the stage of activity he had chosen. He later fought for his convictions, and saw assomplished, before, with so many other brave men, he fell upon the field of battle—accomplished at vast cost of blood and tears—that work which he had been inspired to undertake in a more futile form.

"You may say to this gentleman that I shall join him presently, in the parlor at the right of the stair," said Josephine St. Auban after a moment to the messenger.

CHAPTER XXVIII.
In Acknowledgment.

As she entered the room, there rose to meet her a tall gentleman, who stood gravely regarding her. At sight of him she paused, embarrassed. No figure was more familiar in Washington, yet none was less to be expected there. There was no mistaking the large frame, the high brow, the dark and piercing eye, the costume—that of another day. Involuntarily, although her first impression (based upon other meetings with distinguished men) was one more of apprehension than of pleasure, she swept him a deep curtsy. With the grace of a courtier he extended a hand and led her to a chair.

"You know me, Madam?" he demanded, in a deep and bell-like voice. "I know you, as well. I am delighted, I am honored, to announce that I come to you as a messenger."

"It is an honor that you come in any capacity, Sir. To what may I attribute so kind a visit, to one so unimportant?"

"No, no, my dear Countess. We rate you very high. It is the wish of a certain gentleman to have you attend a little meeting which will not welcome many out of all this city. It is informal and unofficial, my dear lady, but all those who will be there will be glad to have your attendance. It was thought well for me to drop in to interrogate your pleasure in the matter."

"It is a command, Sir! Very well, at what time, then?"

"If it should please you, it would delight me to accompany you at once, my dear lady! My carriage is waiting now."

Josephine St. Auban did not lack decision upon her own part. Something told her that no danger this time lurked for her.

"Pardon me for just one moment then, Sir," she answered. A few moments later she returned, better prepared for the occasion with just a touch to her toilet; and with a paper or two which with some instinct she hastily snatched up from her desk. These latter she huriedly crowded into her little reticule. They took the carriage and soon were passing through the streets toward the most public portion of the city of Washington.

MILLIONAIRE WIFE AND SOULMATE ORDERED TO LEAVE APARTMENTS; HUSBAND IS MUM

NEW YORK, Sept. 18.—Notice to move out at once was served upon Frederick Noble and his soulmate, Mrs. Walter Lespenard Suydam, wife of a Blue Point, L. I., millionaire, by the proprietor of the Regina apartments, following the public announcement by Noble and Mrs. Suydam that they had eloped and for a week had been living together at the Regina.

Mrs. Suydam when seen at the apartments today, was very much displeased at being bothered and said she wished to attend to her household affairs, and that she and "Billy," as she calls Noble, were getting along "very nicely, thank you." District Attorney Whitman said today that at present he would take no action in the case as Noble and Mrs. Suydam had merely announced that they were living in the same apartment; that no complaint had been made of any violation of the law.

Before her marriage Mrs. Suydam was Miss Louise White, daughter of Jay White, a prominent architect. Her husband, Walter L. Suydam, is a member of a wealthy aristocratic New York family. Noble is the son of a Brooklyn plumber.

DUMAS SAYS NOT GUILTY

BEMIDJI, Minn., Sept. 18.—Dr. D. F. Dumas, mayor of Cass Lake, a town near here today, pleaded not guilty to the indictment of "attempted arson in the third degree," returned against him late Friday as the result of Dumas' alleged conspiracy with others to rob and burn the postoffice at Poposky, Minn., last June. The trial of Dumas probably will be set for next Tuesday.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. It SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN; CURES WIND COLIC, and is the best remedy for DIARRHŒA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

DAY FOR AFFINITIES

EARLE ARRIVES WITH LATEST WIFE; KING MANUEL'S ENTRANCER; MRS. SUYDAM AND MRS. SINCLAIR IN LIMELIGHT

NEW YORK, Sept. 18.—Saturday was soul-mate day in Gotham.

Ferdinand Pinney Earle, father of the "affinity code," arrived with his very latest wife.

Gaby Deslys, winsome dancer, who won the heart of King Manuel and caused him to lose his crown, arrived from France.

Mrs. Louise White Suydam, wife of a Blue Point, L. I., millionaire, was out with a statement defending her action in eloping with Fred Noble, son of a Brooklyn plumber.

Mrs. Upton Sinclair was here awaiting the result of her socialist author husband's suit for absolute divorce to free her from what she terms the "illogical and unnecessary bonds of matrimony."

NEW TEACHER FOR NORMAL HERE

The first of the new teachers allowed the local normal school by the recent action of the board of regents has been selected by President F. A. Cotton. He is Prof. Nourse, who has for the last two years been teaching German and French in Emporia college, Emporia, Kan.

The University of Wisconsin has been making efforts to secure the services of Prof. Nourse, and it was only the offer of higher salary than that proposed by the state university that secured his services for La Crosse. He will be head of the German-French department of the two year college course at the local school.

Prof. Nourse is eminently fitted for the place, having been educated at Berlin and Heidelberg. To perfect himself in the French language it is his custom to spend his summers in France. Prof. Nourse will arrive to commence active work in the course Monday morning.

Being popular has more drawbacks than comebacks.

FOREIGN STARS TO APPEAR IN AMERICA

CLOTHIERS WIN IN THE NINTH INNING

The Nelson Clothing company yesterday whipped the Onalaska team by a fierce ninth inning batting rally which netted them two runs, enough to win the game with nothing to spare. The final score of the mixup was 3 to 2.

In the ninth inning, after Woll had flied out to the second baseman, Miller began the fireworks with a single over second and followed it up immediately by stealing to the middle station. Nelson then slammed a double, and Hayes a single, Miller coming home on Nelson's two bagged. Roder then popped out a long single and scored both Hayes and Nelson.

Score by innings:	R	H	E
Onalaska 020000000—2	6	2	
Nelsons 100000002—3	6	3	

Batteries—Onalaska, Christopherson and Comeau; Nelson, Squires and Jurgenson. Struck out, Christopherson, 1; Squires, 11.

BOLD BURGLARY OF HARDWARE CO.

Pfafflin & Manke's Establishment Entered and Merchandise Carried Off

MRS. MANKE HEARD THIEVES

Aroused Husband, but He Returned to Sleep Thinking Cats Were Cause of Noises

A bold robber whose identity is still a mystery Saturday evening broke into the Pfafflin and Manke hardware store, 1300 Caledonia street, making his entrance through a window a few feet from the bedroom of Emil Manke, secretary and treasurer of the firm, whose house is directly in the rear of the store. The robber secured about fifty dollars worth of loot, in the shape of five revolvers, about a dozen pocket knives, a rifle and other material.

The robbery was committed at about eleven o'clock in the evening. Manke was aroused from his sleep by the furious barking of the dog, but did not investigate, telling his wife it was only cats in the empty boxes back of the store. Sunday morning when he investigated he found that the putty from one of the rear window panes had been removed with a knife, and the glass lifted out.

Police on Case

That the robbery was committed by a man who was unafraid of prevention is the theory of the police, who declare that after leisurely breaking into the store the man went through the stock taking what he desired, and then as calmly left, walking past the bed room window of Manke with no attempt to soften his foot falls on the cement walk.

Takes Ammunition

The robber stopped long enough at the rear window on his way out to fill his stolen weapons with purloined ammunition, a half empty box of cartridges being found on the window sill. The police are working on the case, and claim to have several parties under suspicion of the deed.

STOPS DOG FIGHT; BITTEN ON LEG

While attempting to pull his own dog from a fight M. Gorsey, 1542 Wood street, was bitten in the calf of the leg, by the under dog Sunday evening. Gorsey's dog, who was the biggest, was winning, and in order to keep it from injuring the smaller animal, his master grasped him by the collar and pulled him from the row. The smaller dog immediately sank his teeth in the leg of the man. The wound was dressed by a doctor, and the dog is being kept under surveillance, although there are no signs of rabies.

MARVIN UPHOLDS HIS RESOLUTION

Declares that the Common Council Has Right to Increase License to $500

Alderman George B. Marvin, whose resolution to have the council raise the liquor license to $500 is now in committee, took occasion this morning to deny a statement which was made to a Tribune representative Saturday, that the council had no authority to raise the liquor license. In the following communication to The Tribune Mr. Marvin states the grounds upon which he upholds the right of the council to raise the license:

"Editor Tribune:

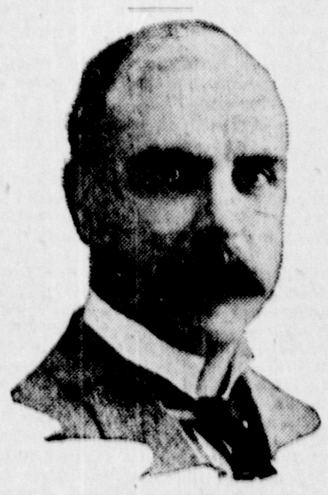

"Dear sir: Regarding the item which appeared in Saturday's Tribune to the effect that the council has no authority to raise the liquor license, I would like to state that I have opinions from several lawyers, who inform me that the council can raise the license to any amount, or refuse to grant a license at any price if they so desire. I would refer to Judge Higbee's Viroqua decision along this line.

"In the city charter, chapter 4, it says that the common council shall have the power to regulate licenses, and fix the sum to be paid.

"Yours very truly,

(Signed) "GEORGE B. MARVIN, JR."

LA CROSSE STONE CO. GETS CONTRACT

The La Crosse Stone company has been awarded the cantract for paving Madison street, as their bid was the lowest received by the board of public works. They submitted four figures, on different kinds of paving, as follows: $10,484, $10,164, $10,414, $10,587.

Other bidders were Thomas E. Wooley, $10,587, and Batchelder & Powell, whose figures amounted to $10,700.

The kind of paving to be put in has not yet been decided upon by the board of public works, but it is thought that work will commence immediately when the material has been chosen. This, however, is not definitely known, as the contractors are allowed until the first of July, 1912, to finish the job.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. O. T. Erhart.

AMERICAN FLAG IS MISSING ON OCEANS

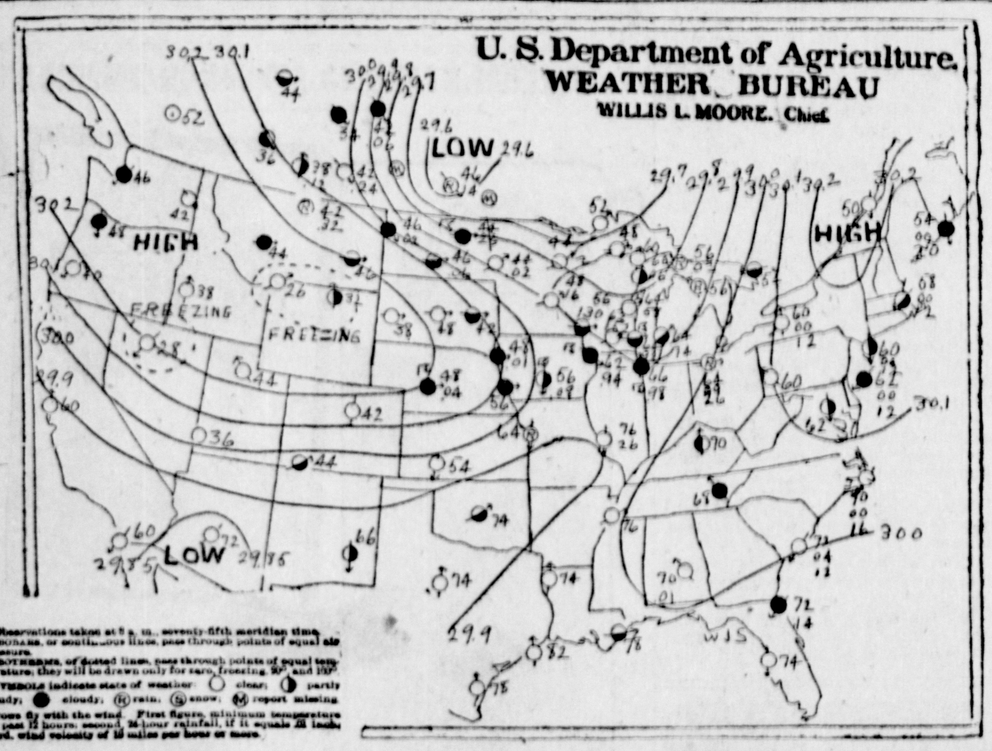

WASHINGTON, Sept. 18.—The small part taken by the United States in the great marine traffic of the world is reflected in the annual report of navigation through the Suez canal just received by the department of commerce and labor.

In the year 1910 the vessels passing through the canal numbered 4,581,898. Of this great mass of shipping 30 vessels, with 105,703 tonnage, displayed the stars and stripes. Twenty-seven of the thirty vessels were war ships.

In the showing of nations this country was below Great Britain, Germany, Netherlands, France, Austria-Hungary, Italy, Japan and Russia.

The total number of passengers carried through the canal last year was 233,978, of which the military totaled 76,854, civilians 128,171 and pilgrims, emigrants and convicts 28,953.

DRAINAGE REPORT READY OCTOBER 12

GALESVILLE, Wis., Sept. 18. — A hearing on the report of the commissioners in charge of the work of draining 7,000 acres of lands in the bottoms of Trempealeau will be held at Whitehall Oct. 12. This report includes a description of the property, award of damages and assessments for the work.

It is estimated that the proposed work will cost approximately $84,000. The district comprises more than 7,000 acres of lands in Trempealeau bottoms. Should the work be completed, more than 6,000 acres of now useless lands would be reclaimed and converted into fertile fields.

The law is such that the property itself is assessed for its own reclamation, and the assessments for the completion of the work may be paid in annual installments extending over a period of fifteen years, thus giving the owner of the property opportunity to cultivate the land after its improvement and pay his assessments from the net profits.

The law also makes it optional with the property owner whether he will pay his assessments in advance or take the installment plan.

It's easy for people to make money who don't need it.

Lady Baltimore Cake

The Most Popular Cake This Season

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This is considered by many cooking authorities the finest cake that can be made, though in reality it is not at all difficult.

K C Lady Baltimore Cake

One cup butter; 2 cups granulated sugar; 1 cup milk; 1 teaspoonful rose water; 3½ cups flour; 3 level teaspoonfuls K C Baking Powder; whites of 6 eggs, beaten dry.

Cream the butter and beat in the sugar gradually. Sift together, three times, the flour and baking powder, and add to the butter and sugar, alternately with the milk and rose water. Lastly, add the egg whites. Bake in three-layer cake pans. Put the layers together with the following frosting.

NOTE—The cake is a large one and sells at Women's Exchanges for $1.50.

32

Frosting for Lady Baltimore Cake

Three cups granulated sugar; 1 cup boiling water; whites of 3 eggs; 1 cup chopped raisins; 1 cup chopped nut-meats; 5 figs cut in thin slices.

Stir the sugar and water until the sugar is dissolved, then let boil without stirring until the syrup from a spoon will spin a long thread; pour upon the whites of the eggs, beaten dry, beating constantly meanwhile. Continue the beating until the frosting is cold; add the fruit and spread upon the cake.

The K C Cook's Book contains ninety just such delicious recipes,—bread, muffins, cakes and pastry. You can secure a copy *free* by sending the certificate packed in every 25-cent can of K C Baking Powder to the JAQUES MFG. Co., Chicago. Small cans do not contain Cook's Book certificates.

NEW BUILDINGS FOR BIG FAIR

All Are Being Repaired for 1911 Exhibition, which Promises to Break All Records

The Inter-state fair is approaching, and the fair association is bending every effort to the work of getting the grounds and buildings into shape to receive the thousands of entries that have already been made.

A crew of twenty men is working at top speed every day, repainting, whitewashing, building, trimming, rolling roads and the track, and performing other task required before the grounds will be in proper condition for the exhibit.

Four new buildings are being erected. They are long wooden affairs north of the grandstand, near the west entrance, and consist of a double row of pens, with a corridor down the middle. They are to be used as sheep and hog exhibition buildings.

The long rows of stalls for the exhibition of cattle and horses are being whitewashed newly, as are also all the stables for the accommodation of the strings of trotters and pacers that have been attracted by the prizes offered for speedy animals. The fences around the big half mile track is also being painted, and repairs are being made where necessary to the fence and stables.

The big grandstand is having minor repairs made, and a coat of paint will be applied to put it into first class condition. The track also is receiving its share of attention in the general cleaning up and refurnishing that is going on. It has been rolled and weeded, and expert judges of racing declare that at the present time there is no track in the state that "has anything on it" in the way of speed.

SALESMAN IS MISSING

MADISON, Wis., Sept. 18.—(Special.)—"I'm going to take the short route."

Leaving this message to A. O. Paunack, Carl W. Heyl, a traveling salesman, disappeared Wednesday night, and his coat and hat were found in a rowboat on Lake Mendota, near the state hospital, Thursday afternoon. The police believe Heyl did not commit suicide and that a frameup was arranged. Financial troubles are thought to be back of his disappearance.

Heyl was for several years teller for the Bank of Wisconsin here and later was cashier of a Neillsville, Wis., bank. He is a nephew of Fire Chief C. W. Heyl of Madison.

PRODUCE DRIVER HURT

RACINE, Wis., Sept. 18.—Matt Baker, driver for a wholesale produce dealer, was thrown from the top of a load of bailed hay and in falling, fractured both of his wrists, one of them in two places. He was also injured internally and lies at a local hospital in a precarious condition.

The Rev. Frost says that the man who too frequently toasts on earth is apt to toast in the hereafter.

ADJUSTED TO THE SECOND

Every one appreciates a watch that is accurate to the second. The watch you own may be capable of running to the second if you only have it repaired properly. No matter who has repaired it before, we can put the watch in better order than you have ever had it, and it will be adjusted to the second. That is our motto on all watch repairing.

BALLINGER DENIES CHANGE OF HEART

SEATTLE, Wash., Sept. 18.—Reports that former Secretary of the Interior Ballinger has changed his views regarding conservation and kindred public questions were denied today by Ballinger himself. He declared absurd the report that, accepting an invitation to address the public lands convention in Denver Oct. 2, he wrote: "While secretary of the interior I had to conform to the views of the administration, but as a private citizen I have changed."

"My views on public questions and issues have not changed," said Ballinger today. "The fact that I am a private citizen makes no difference. My address to the land convention will be a "portrayal of American beaureaucratic government,' but I will not discuss it in advance."

WEST CUTTING INTO BUSINESS OF EAST

CHICAGO, Sept. 18.—The west has cut further into the business supremacy of the east by the removal from New York to Chicago of the entire auditing department of the Wells-Fargo Express company. Five special trains, carrying 1,000 employes of the company, their families, baggage and household effects, were due in Chicago from Gotham September 15. There will be at least 3,000 persons in the trekking party. When the company first announced the impending change there were many and strenuous objections upon the part of the employes, and many native sons of New York put in hasty resignations, looking with horror upon the idea of leaving Manhattan island for Chicago. These prejudices soon began to disappear and the company officials expect to have their entire clerical force move intact to the western metropolis. This migration is the carrying out of a plan of the company to have the greater part of its clerical work done from a more central point than New York. The headquarters will be at 817 South Fifth avenue.

SALOONS ARE ENJOINED

SPRINGFIELD, Ill., Sept. 18.—Claiming that the sale of liquor to their employes tended to make them unfit for work, the Illinois Midland Coal company today obtained a temporary injunction in the Sangamon circuit court restrining saloonkeepers at Pawnee from selling liquor to the miners employed by the company. The case is an important one as it set a precedent.

LAZY LIVER, BILIOUSNESS, HEADACHE, COATED TONGUE OR A BAD STOMACH

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

MEXICO CELEBRATES HER INDEPENDENCE

MEXICO CITY, Sept. 18. — The streets are crowded by thousands of persons attending the independence ceremonies at Chaputepec. After the military parade, the ceremonies of decorating army officers distinguished for bravery with the various medals and crosses was performed by de la Barra at the Juarez statue. No signs of trouble attended the imposing spectacle.

Friday's celebration of President Taft's and former President Diaz' birthdays was the most enthusiastic and peaceful, ever held.

Despite the rumors that foreigners would not be allowed to participate in the street carnival thousands mingled unmolested with joyous throngs until early morning hours.

EMMA EAMES SAYS MARRIAGE IS LEGAL

NEW YORK, Sept. 18.—Vigorously asserting that the Roman Catholic church has no cause to question the validity of their marriage, Emma Eames, the prima donna and her operatic husband, Emilio de Gorgoza, arriving today on La Dorraine, declared they do not believe the church authorities are again investigating the union.

"The whole matter was inquired into when we were married," said de Gorgoza, "and settled once for all."

"Perfectly silly," was Mme. de Gorgoza's comment on the cables from Paris saying that the church authorities say de Gorgoza was not free in the eyes of his church to take a second wife.

WARRANT OUT FOR GROUT

NEW YORK, Sept. 18.—A warrant for the arrest of Edward M. Grout, ex-controller of New York city, and president of the Union Bank of Brooklyn was signed by Justice Putnam, in supreme court, Brooklyn. Later an order to show cause was secured by Grout which delayed execution of the writ.

The charge against him is contempt, Grout having refused to testify in the investigation of the Union Bank, which recently closed its doors.

IOWA MINERS WILL CALL STRIKE SOON

DES MOINES, Iowa, Sept. 18. — Every union coal miner in Iowa may be called out on strike within the next few weeks. The case in dispute is a question of arbitration of a difference occurring at the Excelsior mine at Pekin.

It is practically assured that operations at the Excelsior mine will be suspended indefinitely or until the arbitration which the miners desire is granted by the executive board.

It is held by the unionists that the management of the Excelsior company, while operating under a closed shop agreement, has discriminated against the more active members of the union.

TORNADO HITS BASEBALL PARK

Grandstand, Fence and Fair Buildings Destroyed by Heavy Wind; Plate Glass Broken

DIRECTORS MAY QUIT GAME

Special Meeting of Baseball Men Tonight; Football Team Is Without Grounds; Loss $3,000

Ruins Left by Storm

- Roof of baseball grandstand carried away.
- Fence of baseball park destroyed.
- Baseball club house destroyed.
- Section of fair sheds destroyed.
- Plate glass window of Koller grocery store broken.

One of the most severe tornadoes in the history of La Crosse struck the eastern section of the city last night between 9 and 10 o'clock when damage amounting to between $2,500 and $3,000 was done. The greatest damage was done at the baseball park and fair grounds, a large section of the buildings being almost totally wrecked.

The roof of the north section of the grandstand was carried away and strewn through Myrick park for a distance of 500 feet while the stand itself was split into two sections at the entrance. All of the north fence has disappeared and about seventy-five feet of the southern fence has been wrecked.

The street car traffic was also blocked in that part of the city, a section of the fair sheds about 200 feet in length having been hurled through the air, falling upon the tracks. This was the only portion of the fair grounds which suffered, however, and the association had men on the spot today to commence the rebuilding operations. As the fair is scheduled for next week work on the building is being commenced immediately and will surely be finished within a few days.

Large trees were damaged to some extent and several of the smaller ones were torn from the ground, while other minor damages have been reported in other parts of the city.

Lumber is Useless

A large crew of men was sent to the grounds this morning to clean up the wreckage and upon investigation it was found that nearly all of the lumber was damaged to such an extent as to be worthless. Most of the fence which was carried away lay in splinters for blocks around while the roof of the grandstand and the club house were in little better condition.

May Kill Baseball

A special meeting of the board of directors of the baseball association has been called for tonight by the president, John Elliott, when the matter will be taken up and it is thought that the damage will cause the directors to take definite steps either toward the procuring of a new baseball park or the abandonment of baseball.

The damage to the property of the baseball association is close to $1,000 and the association has other debts amounting to the same sum. It is understood that baseball has never been a paying proposition at the present park and the loss caused by the storm may decide the directors to give up professional baseball here and to sell their players.

On the other hand if the directors decide to continue the game the destruction of the grandstand may be instrumental in procuring a down town park as a new grand stand will have to be erected.

Highs Have no Gridiron

The destruction of the fence of the baseball park leaves the local high school without a football field and will probably result in the calling off of the High-Normal game scheduled for September 30, and perhaps the whole schedule may have to be given up.

Manager Sorenson of the football team announced today that he would confer with the directors of the baseball association this evening and will make an effort to have them repair the fence before the season opens,

AVIATOR CAUGHT BY HICKORY TREE

Rodgers Wrecked in Flight from Atlantic to Pacific Coast; But Slightly Hurt

WARD FORCED TO DROP DOWN

Fowler Repairs Machine on Other Side of Rockies; Will Fly Tomorrow

MIDDLETOWN, N. Y., Sept. 18.—After making good progress on the first day of his attempt to fly from the Atlantic to the Pacific, Aviator C. P. Rodgers came to grief here today and will probably be unable to start before tomorrow. The planes of his machine were wrecked, but the engine was not damaged and the machine can be rebuilt before tonight probably. The aviator suffered a slight injury to his left ankle.

Rodgers was up bright and early, and at six o'clock this morning was inspecting his machine. Twenty-five minutes later his engine rattled and he ran along the ground for 150 feet before taking the air. He then rose twenty feet, just missing a stone fence and sailed 500 yards when his right plane struck a hickory tree in a Fulton street backyard. The plane doubled and Rodgers and his machine tumbled down through the branches. In falling Rodgers managed to throw himself clear of the engine, but was pinned down by the planes of the machine, injuring his ankle. When this wound was dressed, Rodgers immediately began rebuilding the machine with extra parts carried for such an emergency, and declared the accident would prove but a slight delay.

Ward Starts Again

OWEGO, N. Y., Sept. 18.—After being delayed here since Saturday when his plane was badly damaged in attempting a start, Aviator James J. Ward, who is attempting to fly across the continent, again took to the air at 10:45 o'clock this morning.

Forced to Land

CORNING, N. Y., Sept. 18.—After being in the air fifty minutes, during which he covered fifty-four miles Aviator Ward was forced to come down at this place at 1:30 this afternoon he was still on the ground and unable to say when his machine would be in shape to resume the journey.

Fowler Ready to Fly

ALTA, Cal., Sept. 18.—With his smashed biplane rebuilt except for attaching the rear rudder, Aviator Robert G. Fowler, the first man to start in an attempt to fly across the American continent, today made final preparations to resume his flight. Whether he will start this afternoon or tomorrow morning depends upon how the new rudder works.

It is probable that no start will be made today but that the afternoon will be devoted to tuning up flights and that the aviator will ascent before sun rise Tuesday and soar towards the Sierra Nevadas. If Fowler can get across these mountains without mishap, he will have put behind him what many regard as the most dangerous part of the flight.

BAD STORM HITS CHICAGO

CHICAGO, Sept. 18.—Thousands of awnings were torn down, windows blown out and telephone and telegraph wires were strewn about the streets early today, following an electrical storm accompanied by a wind of cyclonic velocity. Several pedestrians were injured by falling signs. Much damage was done to craft in the harbor.

by the committee from time to time. Among recommendations is one for a storage reservoir of 5,000,000 Gal. capacity to be constructed to receive the water from the pumps. Another storage reservoir of 5,000,000 gallon capacity is recommended for construction on the bluffs east of the city at an elevation of 120 to 140 feet above the level of the main streets, this elevation being equivalent to 50 or 60 pounds pressure.

He estimates the cost of the new water system for the city at $260,000.

To Rush Work

Following the meeting this morning Mr. Maltby announced that he would immediately plunge into the details of the work. The preliminary plans will be drawn at once and bids on various parts of the work asked for.

"While it is impossible to state at this time just when the work will be completed I believe everything will be in shape by next fall," said Mr. Maltby. "It will be rushed and I will be on the job most of this winter and next summer."

but that this will be done, is doubtful.

At present there are no other grounds in the city which are suitable for the purpose and although the high school grounds can be used for practice the high may have to drop the game for the present season.

Window Broken

A plate glass window in the store of John Koller, Fourth and Division streets was broken by the wind. The window was eight by twelve feet and was valued at $125.

TROOPS CAMP IN SPANISH CITIES

General Strike Assumes a Revolutionary Character; Railroad Tracks Torn Up; Bridges Destroyed

MADRID, Sept. 18.—The general strike broke out in Madrid this afternoon. Its character is distinctly revolutionary. Martial law was proclaimed. Serious disturbances are in progress. Troops occupy the streets.

King Alfonso's cabinet for some time has been considering the advisability of suspending the constitution that there might be less difficulty in coping with the general strikes throughout Spain, which rapidly have been assuming revolutionary proportions.

At Barcelona, where a walkout is expected, a plot has been discovered for a campaign of terrorism. It is being engineered by Spanish and foreign anarchists and though the government knows in a general way what is planned, it is doubtful if the outbreak can be prevented.

Strikes are also about to be declared at Corunna and Ferrol. They are already in progress at Cadiz, Huelva, Valencia, Seville, Gijon, Balboa and Saragosso. There is fighting at all these places and in the country rail railroad tracks are being torn up and bridges dynamited.

MUNICIPAL CONGRESS OPENS IN CHICAGO

CHICAGO, Sept. 18.—With hundreds of mayors from cities throughout the country in attendance, as well as visitors from all parts of the world, Mayor Carter Harrison formally opened the international municipal congress and exhibit at the Coliseum at 2 o'clock this afternoon.

The program included speeches by Mayor Gaynor, New York; Mayor Reyburn, Philadelphia, and Mayor Fitzgerald, Boston. Letters of greeting from the lord mayor of London and other European officials were read.

The exhibit will be open every day but Sunday until September 30.

STATE SCHOOL IN BETTER CONDITION

That J. F. Brown, the new superintendent of the school for dependent children at Sparta, although in charge of that institution but a few months, has done wonderful work for the betterment of the school, is the assertion of Poor Commissioner Sol Burdick, who today returned from a trip to the school. Mr. Burdick declares that Mr. Brown is a man well suited for the position, and that the state school is being more properly taken care of and the children receiving more advantages than ever before.

GOMPERS TO WORK FOR A SOCIALIST

Organized Labor and Socialism Unite to Elect Harriman Mayor of Los Angeles

LOS ANGELES, Caly., Sept. 18.—"I want to do some work and possibly make some speeches in behalf of Job Harriman's candidacy before I leave Los Angeles."

This announcement coming today from Samuel Gompers, president of the American Federation of Labor, marked the first combination in any city of socialism and organized labor, in an united effort to elect a municipal ticket. Job Harriman, socialist and labor candidate for the mayoralty nomination of Los Angeles, will have a solid labor vote behid him at the primary election on October 31.

Gompers is not a socialist, but he said: "I may disagree with Job Harriman in many political beliefs, but I know that he places human lives before dollars, and if elected, will give the toilers in Los Angeles a square deal." Other candidates are also seeking the nomination. They are George Alexander, incumbent, elected on a reform platform; W. C. Mushet, republican, and Miles Gregory, democrat. It is generally believed, however that the voters will be called upon to choose between Harriman and Alexander on December 5th, next, regular election day.

Woman's suffrage is not an issue in the present campaign because all four candidates profess to be in its favor. Great interest, however, is being manifested in the suffrage question and the direct constitutional amendments. A count of the registration books, just closed, showed that the registration had leaped from 69,000 for the last election to more than 74,000.

GIRL'S ABDUCTOR IS TAKEN TO CANADA

LANGDON, N. D., Sept. 18.—Ed Davis, confessed abductor and assailant of Miss Eleanor Gladys Price, the Pembina Valley, Man., school teacher, was taken yesterday afternoon to Morden, Man., and will be held there pending a preliminary examination on the charges lodged against him by provincial authorities.

His decision to return to Manitoba without extradition was reached when he learned that William Adams, the Snowflake, Man., hotel proprietor whom he shot last week, was not dead.

Adams came to Langdon Sunday afternoon at the request of the Canadian officials.

The New Mode Millinery Store will be open for business Tuesday, Sept. 19, 114 North Fifth street.

BOARD OF TRADE SUPPER TUESDAY

Much Interest in Speech to Be Delivered by Engineer from Panama Canal

What promises to be one of the most interesting meetings ever held is scheduled for tomorrow night when the board of trade will give a six o'clock dinner and present an excellent program at the Y. M. C. A.

A. W. Wyndham, who has been connected with the construction of the Panama canal for some time, and who is a lecturer of note who has been speaking in cities throughout the country during the past, has been engaged to come here to tell about the canal. His talk will be illustrated with a great many stereoptican views of the work and the canal so that the audience will be enabled to understand every phase of this most interesting subject. As Mr. Wyndham's schedule was such that he could not conveniently come to La Crosse last Tuesday, the board of trade decided to postpone the dinner until tomorrow so that the noted lecturer might be present.

A sumptuous menu has been prepared, Y. M. C. A. officials having taken this part of the program under their management. Those attending the banquet will also have a chance to inspect the building.

Officials of the Y. M. C. A. have been asked to deliver short talks on the association and its work in addition to which the reports of five or six important committees are to be read.

The dinner will be begun at six o'clock promptly so that any who wish to attend the theatre or who have other engagements to fill will be enabled to keep them without missing any part of the evening's program.

VOTE STRIKE; STILL AT WORK

BUFFALO, N. Y., Sept. 18.—Delaware, Lackawanna & Western railroad officials said that the section hands here have not yet struck despite the order issued for a walkout Saturday by President A. B. Lowe of the International Brotherhood of Maintenance of Way Employes. It is believed the men have not yet received official notification of the issuance of the strike order.

TONIGHT AT THE BIJOU

BRIDGE QUESTION MAY BE DECIDED

That and Marvin's Resolution to Oust Chief Webber Are on Program

That the free bridge proposition will in all probability be brought up for final vote at the special session of the council called for tomorrow night was the assertion of several aldermen today.

At that time, a committee representing the various local business organizations will be in attendance to work for the passage of the ordinance removing the toll.

Alderman Mahoney this morning announced that a plan is on, but denies active part in it himself, to circulate petitions among the voters calling for a referendum on the matter of removing the toll. A new law delays such an ordinance going into effect until twenty days after its passage and in this time the petitions can be circulated, it is claimed. This is said to be in fulfullment of the democratic platform plank.

Alderman Marvin's resolution to oust Chief of Police John Webber is also to be considered by the council tomorrow night as a committee of the whole.

When Doctors Dine Together

Is it coffee? Is it tea? No! Seldom indeed do they use these evil drugs. They know that they destroy digestion—weaken the nerves—encourage insomnia. The vast majority of physicians prefer pure malt and hop beer at meals, such as

Gund's Peerless Beer

This superb beer has been brewed for over half a century from the best malting Barley and imported Bohemian Hops by the celebrated **"Gund Natural Process."** Physicians knowing its commanding superiority over all other American beers not only approve of it for their own table, but heartily recommend it to poorly nourished and convalescing patients. The testimony of the World's greatest physicians prove that beer is undoubtedly healthy—for example we print the following:

DR. WILLIS P. KING, of Kansas City, formerly President of the Missouri State Medical Society, speaks of beer as follows:

"Beer to persons of moderate health, where used in moderate quantities, does not only increase weight and strength of body, but has the influence of aiding the digestive apparatus to digest other things taken as food. For nearly 40 years I have prescribed our best beers, ordering three to four glasses a day, in a great variety of ailments and the RESULTS have been wonderfully beneficial.

GUND'S PEERLESS Bottled Beer is procurable at all first-class public resorts and found in the homes of those most discriminating. Telephone at once and have a case delivered today.

Grain Letter

CHICAGO, Sept. 18.—Action of the wheat market today was very tame compared with the activity and strength displayed in northwest. At opening leading wheat futures were ⅛c under the close Saturday and from that point there was fairly good upturn. September dropped ⅛c at noon, trading from 92⅛c, while December remained even at 95⅜c. There was an advance of 1c in the Winnipeg price to 98¾c for October. Cable news was very irregular, Liverpool ⅛d higher after opening weak and lower. Northwest wheat receipts were considerably enlarged at all points. At Minneapolis wheat stocks show decrease of 120,000 bushels for two days. Volume of trade here was light and principally in December contract.

Firmness was the leading feature of the corn trade during the morning with an advance of ¼c at noon trading, from 67½ opening in September. Local receipts were 153 cars.

Liverpool price was steady and cable claimed good spot corn demands. Heavy rains over a portion of the corn belt is unfavorable, as some of the crop cut early is spoiling in the shock. Receipts here are decreasing stocks light, cash situation strong.

The trade in oaths was rather small. The market had a better undertone. The local crowd were buying freely because of the wheat strength.

Provision market was dull.

M'GRAW FEARS PIRATE CREW

PITTSBURG, Pa., Sept. 18.—Manager McGraw of the Giants is almost certain today that his team will land the National league pennant. Furthermore he handed out a line of talk that pleased Pittsburg fans very much by declaring that all along he has feared the Pirates more than the Cubs.

For this afternoon's battle, which is booked for 3 o'clock, Mathewson or Ames will take the mound for New York, while the choice lies between Leifield, Camnitz and Adams for Pittsburg.

DIXIE IV. WRECKED ON NIAGARA RIVER

BUFFALO, N. Y., Sept. 18. — Dixie IV., the champion motorboat, wrecked on the riprap wall in Niagara river during Saturday's race, was released Sunday and today shipped to Morris Heights, N. Y., where she will be repaired. The Dixie will be made ready for the winter races at Monaco, in Europe. J. H. Hubbard of Pittsburg, owner of Gretchen II, and J. J. Ryan of Cincinnati, owner of Reliance IV, winners in their respective classes, announce that they will build new boats for the international races at Huntington, Long Island, next year.

SLUGGERS WILL USE CUES TONIGHT

NEW YORK, Sept. 1.—"Bein' as how" neither Tigers or Yanks are figuring in the American league pennant race any more, some of the players of these teams are beginning to turn their attention to other things. Hal Chase and Bill Donovan have taken to billiards and tonight they will settle the baseball championship at three cushions, the pair being conceded the best cueists in baseball.

Surprising what a lot of difference men on bases mean. Brooklyn got just as many hits in the second game but not a run.

Chicago 4-5, Brooklyn 0-0

CHICAGO, Sept. 18.—The Cubs shut the Dodgers out twice yesterday 4 to 0 and 5 to 0. Two recruit pitchers turned the trick for Chance. Charley Smith worked the opener. He allowed but five hits and not a single pass. Larry Cheney fanned ten Dodgers in the second with one out in the eighth, a liner hit by Wheat broke the little finger on Cheney's pitching hand and cut a gash under one eye. Richie finished out the game. Score:

YALE WORKS TODAY

NEW HAVEN, Conn., Sept. 18.—Scrimmaging has been promised the Yale football squad for today. All the veterans are here and the squad is practically complete, numbering seventy husky men. Tom Shevlin's new "ace of trumps" shift may be tried out in secret.

And in the first St. Louis-Boston game, St. Louis garnered 21 hits to the Rustlers' 7.

MISS SMITH WINS IN FINAL ROUND

Rally in Latter Part of the Match Defeats Miss Marston in Tournament

By making a strong finish in Saturday's match, Miss Gertrude Smith defeated Miss Eleanor Marston 1 up in the finals of the Women's golf tournament and by so doing won the title for the ensuing year and the prize that was offered for the winner of the tourney.

The match was one of the closest played on the La Crosse Country club links this season, Miss Marston taking the lead at the beginning which she held during the first half and Miss Smith winning out by steady playing toward the end of the round.

Miss Smith was handicapped on the first hole requiring 12 strokes while Miss Marston weakened in the last two taking 11 for the first and 9 for the second. The cards:

Miss Smith—
12 7 6 7 8 9 4 7 7—67

Miss Marston—
8 9 5 8 7 8 6 11 9—71

IS KILLED BY LION FIGHTING FOR CHILD

HOUSTON, Texas, Sept. 18.—(Special.)—Mortally wounded in a fight with a Mexican lion in a vain effort to save the life of his three-year-old child, which the animal was tearing to pieces, Antonio Miguel Esteva, a Mexican, died a few hours after at a hospital in Matamoras, Mexico.

Esteva lived on a ranch about seven miles south of Matamoras and had left his three children at the house while he worked in the field. A Mexican lion, now rarely seen in that part of Mexico, appeared in the yard and crawled up to the three-year-old child. The child, thinking it a new pet, began stroking it, when the lion leaped upon it, terribly lacerating the little body.

The screams of the child attracted the father who, running to the child's assistance, grabbed the lion, which turned upon him. For fifteen minutes the man and animal fought, the Mexican with his knife. When finally he drove the knife into the heart of the animal Esteva dropped mortally wounded. His body was terribly torn by the animal's claws.

There was a lot of satisfaction for the Cubs, but not complete revenge in their double barreled shutout of the Dodgers yesterday.

You'll never stand it with great man by letting them sit down on you.

NO. 97—F. CHANCE

The Educated Dentist

Frank Chance hasn't been in baseball as long as you or I, but he's done more. This is because he sees things that are not visible to the ordinary-sighted. No Indian that ever moccasined had it on Mr. Frank Chance as a sign-reader. No corporation lawyer that ever tried a case could top Frank in the matter of discovering flaws in the other side's armor, and technicalities the employment of which would give their user a shade. Frank can dig you up a rule to help the Cubs in any emergency, and another rule to retard the enemy. Chance's success is due largely to his marvelous craftiness and his instantaneous grasp of that which can be turned to advantage.

In Cook county, they call him the Peerless Leader. In New York county they call him other names, but these are not to be set down here, for this is an all-friendly historette.

Persons who are pleased to see in Mr. Chance a likeness to a gray, prowling, eye-rolling, menacing timber wolf are fond of recalling that the gent originally was intended for dentistry but gave up that pursuit because it wasn't brutal enough. Whatever may have been his reasons, our Frank did relinquish a dental career, though he had obtained a degree, and you are safe enough in calling him "Doctor" if you are a stickler for titles. This D. D. S. came in San Francisco, after another course at Washington college, California. This boy is educated.

The first team Chance played on was the Fresno club, and he played so warily and intelligently that when Old Gal McVey, the elegant scout, came along and watched the work, there was an immediate offer to the Chicago club. At this period of his career, he was outfitting himself for the catcher's position. When McVey trotted him on the field for official inspection, Master Frank uncorked some fancy stuff that the management hadn't known was even bottled. He pegged from base to base and back again, did some sleek and sassy slamming, and ran a few hundred yards for the gentlemen, who expressed their delight at his varied accomplishments. So well did he show in the pegging parts of the performance that they marked off a place for him back of the batter and told him that was his, for his very own, to keep until otherwise ordered. And Frank Chance became catcher for the Cubs, and caught happily ever after and for many a successful game, and finally, when ther developed a weakness on first somebody suggested Chance, and he goes there, and does even better than he had done as catcher, and that was proceeding considerable.

Catcher, first-baseman, captain, then manager, and winning every inch of the way by the force of his active brain as well as by the strength and cunning of his two arms. Winning sometimes by the slightest fraction, and sometimes by open daylight, but winnirg anyway. That's Chance, managing director of the team which in the last five years has won no fewer than four National league championships, and in the other year was knocking at the door. It's a record to paste up for posterity.

Personally, Mr. Chance is aggressive, fearless and unpretty. Many a commentator in pointing a tale has spoken of Master Frank's battlesome proclivities on the ball field, and added "in private life, he is as different as can be his home life is cheerful and suggests nothing of his public activities." By rights, of course, Chance should carry the diamond disposition to the hearthstone. He should break up the furniture, mangle his helpmate, choke the children and set fire to his relatives-in-law. Frightfully inconsistent chap, this Chance. But ONE big league ball boy, for all that.

Tomorrow—Ty Cobb, whose regular position is batter.

Mattie is spending his spare time in Pittsburg playing checkers at the Y. M. C. A. His team mates are spending their spare time talking about the two big innings he put up Saturday.

Gotham is beginning to insist that the Giants have already copped the Golfalon, but there are still a number of big, hungry young bears in their path.

TRAINING TO MEET JACK JOHNSON

Bombadier Wells, who is scheduled to meet Jack Johnson. Part of his training is rowing on the Thames. The picture shows him starting out for a morning row at Putney accompanied by his trainer, Jim Maloney, at right.

SCHREITER BACK FROM DARLINGTON

C. D. Schreiter, who was in Darlington, Wis., last week during the time when the storm struck that place, says that it worked great havoc and that for three days no trains could enter or leave the city. Railroad tracks for several miles on each side of the city were washed out and the water was so high that it is thought that trains can be

The river at that place overflowed its banks shortly after the beginning of the storm and a flood swept over the country which drowned a great deal of livestock. Mr. Schreiter asserts that the storm was the worst he had ever seen and that it rained incessantly for a long time.

Mr. Schreiter arrived home yesterday but in order to get out of Darlington he was forced to drive 25 miles to get the Illinois Central railroad as no trains could be run into the place over the C. M. & St. Paul.

PINT OF PEARLS ON MANUEL'S CHARMER

NEW YORK, Sept. 18.—Joyous as a school girl and seemingly incapable of wrecking a throne, Gaby Deslys, ex-King Manuel's beautiful charmer, arrived Saturday on LaLorraine. Eager to talk of her "art" (Gaby comes to show America how she danced her way into the heart of the boy ruler of Portugal) the petite Parisian gleefully posed for the swarm of photographers, but of Manuel not a word would she utter.

Gaby appears to be about 23 years old, and is undeniably beautiful. She is slender and sinuous. Her chief charm, however, is her face, particularly her eyes, which are great orbs that light up and sparkle in a manner almost terrifying. To set off these charms Gaby wore about a pint of the wonderful pearls lavished upon her by the ex-king and the clingingest of gowns.

PARTY AT COOL COVE.

Mrs. John C. Toeller, 1414 Madison street, Friday entertained a party of friends at her summer home, "Cool Cove," on board the houseboat "Wanderlust II." The occasion was the celebration of the birthday of Mrs. Toeller and of her 1 year old daughter, Baby Emmaline. Those present were Mesdames O. B. Miller, William Schilling, G. A. Keller, John A. Miller, George Volz and William Sieger.

The satisfaction comes in that it lessened the lead of the Giants, but the Cubs are not square with the Rubber Plant boys yet.

More tombstones would tell the truth about people if left blank.
